The **Catholic Psychotherapy Association of Canada (CPAC)** exists to serve the Church in Canada and to support our members in their professional work – work that recognizes the truths of and is informed by a Catholic anthropology. We believe that authentic Catholic teaching which encompasses an understanding of the human person, family, and society gives insight into those who suffer and who seek growth for themselves and their relationships. We invite all mental health workers and those who support them, who share in this vision, to join us actively and in their prayers.
